

# Easy Wipe Cleaner

For Plastic, Vinyl, Painted surfaces, Metal

## BJ-2000

### Brief Description:

Bianco Japans Easy Wipe Cleaner is uniquely designed to quickly and safely remove dirt, grease and tobacco stains from a variety of surfaces. It is a break from traditional cleaners which include strong cleaners like hydrochloric that are dangerous and awkward to use. Instead our product brings to you a professional strength product based on simple organic acids found in everyday food.

### Benefits

#### **Safe**

Our product uses only weak organic acids that are non-harmful to people and the environment

#### **Easy to use**

There are no complicated procedures for using our product, simply spray on, scrub gently, and wash with water.

#### **Effective**

Our product is specially tailored to remove dirt, grime, grease tobacco stains without discoloring or damaging the surface.

#### **Multiple Uses**

Great for cleaning ventilation fans, removing marker from elevator walls, grime buildup on monitors, ugly yellow grim from tobacco etc...

### Features

Water based

Creates no harmful gases during use

Won't damage or scratch surface

Safety gloves are not required for use

Does not contain small particles which could scratch surface

### Suggested tools

Towel/Rag
