GRANITE CLEANER GS-101

WHAT

Bianco Japan's Granite Cleaner is a unique blend of simple acids specifically tailored to penetrate deep into the surface and break down the dirt trapped within. After a quick application and a bit of gentle scrubbing you will see years of unsightly buildup just wash away and the original beauty come out. This product does not contain HCl and will restore the surface to a natural color, not a bleached too white look. Due to the safe formula, mainly composed of citric and lactic acid, you can work with the ease of mind knowing that you are protecting yourself and the environment.

Not for use on marble or acid sensitive surfaces

SAFETY

Always use proper safety equipment when handling chemicals

In case of spills wash with water and dry with towel

In case of eye contact rinse with water and seek medical aid

In case of ingestion do not induce vomitng, drink lots of water and seek medical aid

INSTRUCTIONS

1. Spray target surface with Granite Cleaner

2. Allow the cleaner a few moments to penetrate the surface then scrub gently in circular motions using an appropriate pad until dirt is removed

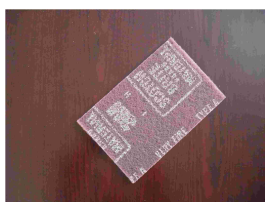

3. Rinse surface thoroughly with water and dry with towel

TOOLS

Use a fine grit sponge pad for delicate and easily scratched surfaces.

A general purpose scrub pad may be used for normal dirt build-up on most surfaces.
